## Retirement

[Virginia Retirement System](#) (1-888-827-3847)

Effective July 1, 2012, as required by the Virginia General Assembly, eligible employees will contribute 5% of their salary to their member accounts. VRS members are vested when they have five (5) years of VRS service credit. Service Retirement is a defined benefit based on a member's average final compensation, years of service, and age at retirement. Employees are automatically enrolled into one (1) of the three (3) VRS retirement plans outlined below.

**Plan 1:** Members with service credit *before July 1, 2010*, are eligible to retire with unreduced benefits at age 65, with at least five (5) years of service, or at age 50 with at least 30 years of service. An employee's highest consecutive 36 months of creditable compensation is used as the average final compensation.

**Plan 2:** Members hired or rehired *on or after July 1, 2010, with no pre-July 1, 2010, service credit*, are eligible to retire with an unreduced benefit at their normal social security retirement age with at least five (5) years of service credit, or when age and years of service credit equal 90. An employee's highest consecutive 60 months of creditable compensation is used as the average final compensation.

**Hybrid Plan:** This plan applies to members hired *on or after January 1, 2014, with no prior VRS service credit*. This plan also applies to eligible VRS Plan 1 and VRS Plan 2 members who elected to opt into the plan during the election window that was held January 1, 2014-April 30, 2014, for an effective date of July 1, 2014. Public safety employees covered by enhanced hazardous duty benefits are not eligible for the Hybrid Plan. This plan offers a defined benefit component and defined contribution component

(similar to 401K). The Hybrid Plan does not offer disability retirement benefits; instead, Hybrid Plan members have a separate program of short and long term disability benefits.
